In re Application of :  
Fortin et al. : DECISION ON PETITION  
Application Number: 10/760075 :  
Filing Date: 01/18/2004 :  
Attorney Docket Number: PUS- :  
H002-001.2 :

This is a decision on the petition filed on October 23, 2007, under 37 CFR 1.137(b)<sup>1</sup> to revive the above-identified application.

The petition is **DISMISSED**.

---

<sup>1</sup> Effective December 1, 1997, the provisions of 37 CFR 1.137(b) now provide that where the delay in reply was unintentional, a petition may be filed to revive an abandoned application or a lapsed patent pursuant to 37 CFR 1.137(b). A grantable petition filed under the provisions of 37 CFR 1.137(b) must be accompanied by:

(1) the required reply, unless previously filed. In a nonprovisional application abandoned for failure to prosecute, the required reply may be met by the filing of a continuing application. In a nonprovisional application filed on or after June 8, 1995, and abandoned for failure to prosecute, the required reply may also be met by the filing of a request for continued examination in compliance with § 1.114. In an application or patent, abandoned or lapsed for failure to pay the issue fee or any portion thereof, the required reply must be the payment of the issue fee or any outstanding balance thereof. In an application abandoned for failure to pay the publication fee, the required reply must include payment of the publication fee.

(2) the petition fee as set forth in 37 CFR 1.17(m);

(3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. The Commissioner may require additional information where there is a question whether the delay was unintentional; and

(4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required pursuant to 37 CFR 1.137(d)).

Any request for reconsideration of this decision must be submitted within **TWO (2) MONTHS** from the mail date of this decision. **Extensions of time under 37 CFR 1.136(a) are permitted.** The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.137(b)." This is not a final agency decision.

This application became abandoned on October 18, 2006, for failure to timely submit a reply to the non-final Office action mailed on July 17, 2006, which set a three (3) month shortened statutory period for reply. No extensions of the time for reply in accordance with 37 CFR 1.136(a) were obtained. Notice of Abandonment mailed on February 21, 2007.

The statement of unintentional delay in the petition does not track the language of 37 CFR 1.137(b)(3), which requires a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional. As such, it is recommended that petitioner use the enclosed form when filing a renewed petition.

Petitioner should file a renewed petition, utilizing the attached petition form.

An extension of time under 37 CFR 1.136 must be filed prior to the expiration of the maximum extendable period for reply.<sup>2</sup> The three (3)-month extension request filed on October 23, 2007, was submitted more than three (3) months after the end of the period for reply to the non-final Office action mailed on July 17, 2006, and therefore is unnecessary. The extension of time fee paid on October 23, 2007, will be credited to counsel's deposit account as authorized.

The revocation of power of attorney and new power of attorney filed on October 23, 2007, cannot be accepted because it is not properly signed. The power of attorney appears to have been signed on behalf of an assignee, but the assignee has not complied with 37 CFR 3.71, which states, in pertinent part:

(a) Patents - conducting of prosecution. One or more assignees as defined in paragraph (b) of this section may, after becoming of record pursuant to paragraph (c) of this section, conduct prosecution of a national patent application or a reexamination proceeding to the

---

<sup>2</sup> See In re Application of S., 8 USPQ2d 1630, 1631 (Comm'r Pats. 1988).

exclusion of either the inventive entity, or the assignee(s) previously entitled to conduct prosecution.

(b) Patents - assignee(s) who can prosecute. The assignee(s) who may conduct either the prosecution of a national application for patent or a reexamination proceeding are:

(1) A single assignee. An assignee of the entire right, title and interest in the application or patent being reexamined who is of record, or

....

(c) Patents - Becoming of record. An assignee becomes of record either in a national patent application or a reexamination proceeding by filing a statement in compliance with § 3.73(b) that is signed by a party who is authorized to act on behalf of the assignee.

Petitioners should utilize the enclosed power of attorney and Statement Under 37 CFR 3.73(b) form to complete a new power of attorney and change of correspondence address.

There is no indication that petitioner herein was ever empowered to prosecute the instant application. If petitioner desires to receive future correspondence regarding this application, the appropriate power of attorney documentation must be mailed. A courtesy copy of this decision will be mailed to petitioner. However, all future correspondence will be directed to the address of record until such time as appropriate instructions are received to the contrary.

**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
